

## Student Job Posting

Cavalier believes that an exciting and challenging work experience is vital to students pursuing careers in the energy industry. We offer unique hands on positions for summer student, work terms, internship and new graduates and recruit from various universities and colleges across Canada. At a small company you can expect mentorship from professionals who are experts in their field and the opportunity to develop strong technical skills while contributing to exciting projects. Cavalier has a company culture of continuous learning and our goal is to provide a real and meaningful contribution to your career development.

If you are a student in any of these areas we would like to hear from you:

Engineering

Geology

Geophysics

Accounting

Computer Science

Business

Law

Thank you for your interest in working at Cavalier. Although we have no formal application process we look forward to talking with you over email.
